

SAVE THE DATES:
SEPTEMBER 6-8, 2011
DUBLIN, IRELAND

Mixing Consultants, Inc. Presents:
ADVANCES IN PHARMACEUTICAL PROCESS DESIGN

by Academic Experts from Rutgers University and Recognized Industry Leaders

*Sponsored by Freeman Technology, Gericke, Glatt Systemtechnik,
Innopharmalabs and K-Tron Process Group*

FUNDAMENTALS OF BATCH AND CONTINUOUS POWDER PROCESSING:

Overview of solid dose and inhalable products. Design of sampling methods. Thief sampling. Thief errors. NIR spectroscopy and other PAT methods for blending. Blending fundamentals. Critical variables in blending. Types of equipment. Failure modes. Segregation, segregation testing. Design of the lubrication step. Blend overlubrication. API agglomeration, causes and diagnosis. Failure modes. Characterization of powder flow properties and their effects on process and product performance.

QBD METHODOLOGIES FOR BATCH AND CONTINUOUS PROCESSES:

Statistical methods for characterization of products and processes. Critical material properties: cohesion, density, hydrophobicity and electrostatics. Critical process parameters: shear, strain, compression force and speed. Effects on product quality attributes: dissolution, content uniformity, weight uniformity.

CONTINUOUS MANUFACTURING TECHNOLOGIES:

Regulatory issues. Design Fundamentals. API pre-conditioning. Feeders. Continuous mixers. API delumping and mixing. Continuous lubrication. Roller compaction. Continuous granulation. Tableting. Capsule filling. Continuous coating. Equipment, critical variables. PAT approaches.

ABOUT MIXING CONSULTANTS, INC.

Mixing Consultants, Inc. provides technical services, supporting research and development and technology transfer in all areas regarding characterization, design, optimization and control of mixing processes for powders, liquids and suspensions. Our focus are pharmaceutical, food, chemical and energy industries. Our mission is to support and educate industry in the application of technical knowledge and modern methods to achieve excellence in product and process design, manufacturing, scale-up, technology transfer and control.

Additional information and inquiries by e-mail to info@mixingconsultants.com or phone +1 (954) 727-3120.

Visit us at www.mixingconsultants.com

PROGRAM

Lectures will be presented by Professor Muzzio unless otherwise indicated.
Daily: Registration & breakfast 7:30 – 8:30 am
Lunch 12:00 – 1:00 pm (one-on-one consultation available upon request)

Day 1: Powder Processing Fundamentals

- 8:30 – 9:30 Overview of powder-based products: tablets, capsules, and aerosol products
9:30 – 10:30 Powder sampling, NIR spectroscopy, and other PAT methods
10:30 – 12:00 Fundamentals of batch powder mixing
1:00 – 2:30 Powder segregation and agglomeration
2:30 – 4:00 Powder lubrication and overlubrication
4:00 – 5:00 New technical solutions for automated NIR applications for powder blending
Mr. Ralf Kretzschmar, Glatt Systemtechnik

Day 2: QbD Methodologies

- 8:30 – 10:00 Statistical characterization of materials, products, and processes
10:00 – 10:30 Vision-based online methods for particle size and shape analysis
Dr. P.J. Cullen, Innopharmalabs
10:30 – 12:00 Measuring and understanding powder flow
Mr. Tim Freeman, Freeman Technology
1:00 – 2:30 Other critical material properties: cohesion, density, hydrophobicity, electrostatic
2:30 – 4:00 Fundamental process parameters: shear, strain, compression force and speed
4:00 – 5:00 Effect of material properties on product performance: A QbD approach to tablet dissolution, hardness, CU

Day 3: Continuous Manufacturing

- 8:30 – 9:30 Theoretical aspects and main design principles of continuous mixing processes
Dr. Ralf Weinekötter, Gericke
9:30 – 10:30 Operational principles of loss in weight feeders and their refill in continuous operations
Ms. Sharon Nowak, K-Tron
10:30 – 12:00 Loss in weight feeders and continuous mixers – Case studies
1:00 – 2:00 Continuous methods for particle size enlargement: Roller compaction and wet granulation
2:00 – 3:30 Tableting and encapsulation
3:30 – 5:00 General design principles of a continuous manufacturing operation

MEET THE EXPERTS

Dr. Fernando Muzzio, PhD. Professor, Rutgers University. Director, Engineering Research Center on Structured Organic Particulate Systems. Expert on Pharmaceutical Powder Processing.

Dr. P.J. Cullen. Technology Director, Innopharmalabs and lecturer in Pharmaceutical Engineering, Dublin Institute of Technology. Expert in PAT & imaging systems.

Mr. Tim Freeman. Director of Operations, Freeman Technology. Expert in powder flow ability in relation to processing and formulation development.

Mr. Ralf Kretzschmar. President, Glatt Systemtechnik GmbH. He is a recognized expert in Pharmaceutical Manufacturing, with special focus in powder handling.

Ms. Sharon Nowak. Global Business Development Manager, K-Tron Process Group. She is a recognized leading expert in the fields of macro/micro feeding and conveying of pharmaceuticals, and in pharmaceutical process engineering/equipment design.

Dr. Ralf Weinekötter. General Manager, Gericke AG. He is one of the world's leading experts in the design and implementation of continuous powder handling, feeding, and mixing systems.

ENJOY THE LOCATION!

Dublin Castle

Visit historic Dublin Castle, kiss the Blarney Stone and see the spectacular Cliffs of Moher. Traditional Irish music and dance as well as a medieval banquet will give you a taste of Ireland.

Registration Fees (per attendee): 1-2 days: €550 per day; 3 days: €1,300 ♦ Early registration: 1-2 days: €500 per day; 3 days: €1,200
Early registration expires on August 5, 2011 ♦ On-site registration: €600 per attendee per day ♦ **Multiple registrations:** Special fees are available for companies registering 5 or more full time participants.

Registration:

Complete the following information and e-mail a signed scanned copy to info@mixingconsultants.com or fax it to Mixing Consultants, Inc. at +1 (954) 880-0228.

Please register me for the course on **Advances in Pharmaceutical Process Design** ~ September 6-8, 2011 ~ Herbert Park Hotel, Ballsbridge, 158 Shelbourne Road, Dublin 4, Ireland (Tel: +353.1.667.2200)

Last Name _____ Name on badge _____

Title/Position _____

Company _____

Address _____

City _____ State _____ Zip _____ Country _____

Phone: _____ Ext. _____ Fax: _____

E-mail: _____

Tuesday, September 6th Wednesday, September 7th Thursday, September 8th

I agree to pay _____ regardless if I attend.

Total days registered: _____ Total cost: _____ Signature: _____

How did you hear about this seminar: Freeman Technology Gericke Glatt Systemtechnik Innopharmalabs

K-Tron Mixing Consultants, Inc. Colleagues, word of mouth, etc. _____

Payment method: Major credit cards or check to Mixing Consultants, Inc., 5093 SW 153rd Terrace, Davie, FL 33331 USA

Cancellation policy: Cancellations will be assessed a non-reimbursable fee of €150 per attendee per day. Cancellations made after August 5, 2011 will not be reimbursable and will require full payment. Attendee replacements within the same company are welcome with prior express agreement by Mixing Consultants, Inc.

Mixing Consultants, Inc. reserves the right to change the place dates, and speakers of the event.

Discounted hotel rates are available but limited. Contact us for reservations.

Additional information and inquiries by e-mail to info@mixingconsultants.com or call +1 (954) 727-3120.
